

PALLIATIVE CARE IS AN
ESSENTIAL COMPONENT IN
PANDEMIC PLANNING
CHECK OUT www.mhpcn.net
FOR COVID-19 RESOURCES

To support high quality palliative care within the Mississauga Halton LHIN the Mississauga Halton Palliative Care Network has launched a **COVID-19** page on our website, www.mhpcn.net, for **health care providers, patients and caregivers**. This page includes Federal, Provincial and local general information, plus palliative care resources related to COVID-19.

Items we wish to highlight that can be found on our site:

1. **Ontario Palliative Care Network** resources that offer suggestions and practical ideas for planning and delivering palliative care during the COVID-19 pandemic.
 - I. [Planning for Palliative Care Delivery during the COVID 19 Pandemic](#)
 - II. [Palliative Care Resources to Support Frontline Providers during the COVID 19 Pandemic](#)
2. [The Academic Detailing: The Palliative Approach to Care in the Mississauga Halton LHIN](#). Developed by the Mississauga Halton Palliative Care Network, this resource brings together into one document palliative care best practices and local resources.
3. **Pallium Canada** is providing, for the next 3 months, **free access** to 6 Learning Essential Approaches to Palliative Care (LEAP). [Click here](#) for more details.
4. **Hospice Palliative Care Ontario (HPCO)** is offering **free access** to their Health Care Consent, Advance Care Planning and GOC E-learning modules. [Click here](#) for more details.
