

RAINBOW HEALTH CONNECT

Rainbow Health Ontario (RHO) has launched a new Learning Management System called **Rainbow Health Connect**. Signing up is free and permanent, and gives access to all of RHO's education resources, including webinars, courses, and documents. RHO's goal of building capacity among Health Care Providers (HCPs) fits very well with our efforts.

We would like to offer the opportunity for primary health care providers to take two courses using Rainbow Health Connect. The first one is **Transition-Related Hormone Therapy in Primary Care** and the second is **Puberty Suppression for Trans Youth in Primary Health Care**.

We and RHO highly recommend that learners register for and complete Transition-Related Hormone Therapy first, before taking the Puberty Suppression course, which is more advanced and requires some education about hormone therapy first.

AVAILABLE OFFERINGS AND DATES

The next offering of Transition-Related Hormone Therapy is **July 31**. You can register yourself through RH Connect.

There are a few sessions set up for Puberty Suppression, starting in early August. The dates are listed below:

August 7, 2020

September 24, 2020

October 2, 2020

November 6, 2020

December 4, 2020

These courses are free until December 31 and then they will be at an accessible fee, and are MainPro-C accredited.

LEARN WITH US

- Please go to **learn.rainbowhealthontario.ca** to register in the RHO LMS for free
- After you're set up, go to **'My Courses'** and scroll down to **Transition-Related Hormone Therapy** and register for the webinar
- Do the same for **Puberty Suppression**
- Numbers are limited, and you will notice that these courses are offered to HCPs exclusively, so physicians, nurses, NPs, PAs only
